Professional Summary

Experienced **Full Stack Developer** with over two years and five months as a **Engineering Lead** and five months as an **Engineering Manager**. Proficient in developing and managing complex mobile and web applications, leveraging technologies like **React Native**, **Node.js**, **.NET**, **TypeScript**, **Redux**, and **C#**. Expertise in delivering scalable, high-performing applications with a focus on exceptional **UX/UI design**, **in-app payments**, **API integrations**, and robust backend solutions.

As an Engineering Manager, I lead cross-functional teams, aligning technological strategies with business goals to drive innovation and deliver value. Previously, as a Tech Lead, I excelled in managing technical tasks, mentoring developers, and driving project success through effective collaboration and adherence to best practices.

My leadership style combines technical excellence, effective communication, and a focus on team growth, making me adept at solving complex challenges and fostering a culture of continuous improvement. Advanced English and native Portuguese, with international experience in Québec, Canada, and proficiency in French, I thrive in dynamic, multicultural environments.

Technical Skills

- **Frontend:** React Native, Angular, React, Redux, TypeScript
- **Backend:** Node.js, .NET Core/Framework, ASP.NET MVC, Java, PHP
- **Tools & Technologies:** Azure DevOps, Git, Expo, Figma, Jira, Hibernate, SQL
- **Database Management:** PostgreSQL, Microsoft SQL Server, SQLite
- **Methodologies:** Agile (Scrum), Project Management (PMP)
- **Languages:** Portuguese (Native), English (Advanced), French (Proficient)

Professional Experience

Engineering Manager

Suno | São Paulo, Brazil | Jul 2024 – Present

- Spearhead the company's technological strategies, aligning IT initiatives with business objectives.
